9th Coffee Public-Private Task Force Open Session

Ex-officio Chair: Vanúsia Nogueira

5th May 2022
14:00 – 16:00 BST
OUR MEETING ENGAGEMENT RULES

• Chatham House rules apply
• We keep our cameras on if possible, especially when speaking
• We mute ourselves to keep background noises to minimum
• We are fully participating in the meeting and make it as interactive as possible
• We give everyone equal speaking time
• We tell things like they are, open, honest, and respectful
• We will record the meeting but use only internally
Anti Trust Statement

This Meeting is organized by the International Coffee Organization, under the auspices of the United Nations, and might touch upon topics of pricing, sourcing and production in the coffee sector, including possibly the elements of farm-gate price, sourcing, and cost of production. It is important we adhere to the antitrust regulations during these discussions, therefore please consider this anti-trust carefully.

- As participants in this session, we need to be mindful of the constraints of antitrust laws. Participants shall not enter into discussions, agreements or concerted actions that may have as their object or effect the restriction of competition. This prohibition covers the exchange of competitively sensitive information including, but not limited to, information concerning individual prices, production, sales, capacities, costs, rates, coverages, market practices, claims settlement practices, company level investments, or any other competitive aspect of an individual company’s operation.

- The participants acknowledge that any efforts made to address the structural problems in the coffee sector shall not result in any understandings or agreements to limit individual activities or efforts to the same ends.

- Each participant is obliged to speak up immediately for the purpose of preventing any discussion falling outside these bounds.
Item 1: Opening Remarks & Purpose of the Day

Vanúsia Nogueira
Executive Director, ICO
Ex-Officio Chair CPPTF
Item 2 - Agenda – to adopt

Item 1: Opening Remarks and the Purpose of the day
Item 2: Agenda – to consider
Item 3: Update from the ICO
Item 4: TWs Update on action for Implementation In exporting countries
Item 5: Breakout Session: New EU Deforestation-Free Supply Chains Regulation
Item 6: ICO and partners in action: links to the Task Force Roadmap
  • Item 6a: ADA - ICO project in Sub-Saharan Africa
  • Item 6b: Concept Note / Roadmap Implementation 2022-2026
  • Item 6c ICO Exporting Member Engagement with Task Force
  • Item 6d: GIZ Due Diligence Fund (DDF)

Item 7: Next events 2022 & Closure
Item 3: Update from the ICO

Gerardo Patacconi
HOO/ICO
Item 2: Update from the ICO

- The New International Coffee Agreement 2022
- Finalization of CDR 2021 on Coffee Next-Gen
- New CDR 2022 on Circular Coffee Economy
- Webinar on the EU regulation on Deforestation-free SC
Item 4: TWS Update
Focus on work now starting in exporting countries
Item 4: TWS Update

- **TW1 Living/Prosperous Income**: Christina Archer/Chris Wunderlich Sustainable Food Lab + IACO and PROMECAFE
- **TW2 Market Transparency**: Sylvia Calfat/Ric Rhinehart, The COSA
- **TW3 Policies & Institutions**
  - **Sub-Group Sector Transformation Exporting Countries**: Leif Pedersen (UNDP) and Annette Pensel (GCP)
  - **Sub-Group Importing Countries**: Hannelore Beerlandt (EU-INTPA)
- **TW4 Resilient Coffee Landscapes**: Niels Haak (SCC)/Conservation International and Colleen Popkin (Rainforest Alliance)
Opportunities

- Benchmark Accelerator to fund additional country benchmarks across varying regions.
- PPP funding to accelerate measuring actual incomes and closing the gap.
- Capture potential of private and public sector engagement.

Corrective Actions:

- Further align TWS activities and outputs
- Further define an M&E system for TWSs & sector transformation

Constraints

- Lack of funding (need mapping of donor prospects, communication materials and coordination between TWSs)
- Challenge of countries moving to action prior to donor and public sector commitments

Resources

- GIZ funds for IACO, Promecafé, SFL facilitation
- Development of PPP proposal

Way forward

- Support resource mobilization with Taskforce Proposal
- Quarterly LPI TWS meetings to update and discuss work
- Focused Technical and Regional meetings (as needed)
- Coordination with TWS2 and 4 on pilots in Peru, Mexico and Rwanda.
- Coordination with TWS3 once focus countries confirmed
- Continue to support country (Peru, Honduras, Indonesia, Ethiopia) and regional level work (IACO, Promecafe, ACF)
### Thematic Area

**TW1**  
**Living-Prosperous Income**

<table>
<thead>
<tr>
<th>Envisioned Outcomes</th>
<th>Targets 2022 from Roadmap</th>
<th>Progress achieved</th>
<th>Comments</th>
</tr>
</thead>
</table>
| Share information sources on living income for ICO members and confirm sector strategy for implementing L-PI approach and meeting aspirations. | Draft 2022 Targets: (to be confirmed with TWS1 in Feb) | 1. Accelerated Benchmark Project:  
• RFP issued; proposals received and assessment completed  
• Confirmation of funding underway  
• Servicer Provider contracted  
• XX Benchmarks carried out; national governments engaged | 1. Decision pushed to early May. Benchmark process underway in Peru |
| Establish LI Benchmarks in at least 80% of ICO member producing countries by 2025 and 100% of ICO producing countries by 2030. | 2. From 2021: PPPs under development in at least 4 ICO countries | 2. PPPs:  
• Discussions with TWS members to understand interests and provide background information.  
• Countries and strategies to close the gap identified  
• Criteria developed with TWS | 2. Discussion with other TWS to coordinate efforts in priority countries and establish PPPs where relevant. |
| Reach and supersede the income benchmarks through a continuous improvement process in all ICO producing countries. | 3. Key funding mechanisms for TWS 1 work identified and how it links to overall mobilization and implementation of the CPPTF. | 3. Key funding mechs:  
• Input to overall CPPTF Funding proposal  
• Benchmark funding work in progress  
• Funding secured including % of budget allocated to design and implement activities that close income gaps and focus on women and marginalized groups. | 3. Continued 1-on-1 meetings with Private Sector for Benchmark funding. TBC support to ICO on wider funding pitches |
| Implement L-PI pilot projects in 4-6 countries by 2026/27 and 50% of ICO countries by 2030. | 4. Concrete action plans with regional platforms (beginning with Promecafe & IACO) | 4. Action Plans:  
• GIZ contracts with regional platforms signed  
• Plans and identified partners developed for at least 4 countries | 4. Action plans being developed with reg’l platforms. Exploring ACF as partner |
| Close the income gap for target producers in at least 50% of the ICO producing countries by 2030 (with commitment subject to revision in 2026). | 5. Facilitate knowledge sharing on the national and regional level, and link to sector level dialogue. | 5. Knowledge sharing:  
• Actual Income Measurement Group meetings launched  
• Briefings on LPI complete with 2 countries and 2 subnational roundtables  
• Complete LPI briefings for 2 additional countries / platforms; toolkit developed for governments and regional platforms  
• Host knowledge sharing opportunities at at least 2 additional meeting | 5. Developing case studies on income data for assessing gaps. LICOP meetings in Q2 to feature ICO work. SCA presentations of LPI. |
|  | 6. Clarity on priorities and facilitation for TWS1 for 2023. | 6. 2023 planning  
• Not yet started | 6. NA |
Systemic data areas serving common interests:

- **Cost of production**: All key elements that contribute to a sustainable production.
- **Value Chain Efficiency**: The value of each key stage from the farm gate to FOB.
- **Key Data Living Income**: Elements to calculate Living Income gaps & critical sector data.
- **Policy**: Consistent year-year insight for data-informed choices.

Transparency Technical Workstream

</tr>
</thead>
</table>
| TW2          | Market Transparency | 1. Contract with pilot countries  
2. Establish Int’l Technical Panel to determine data and methods  
3. Collaboratively refine methods and approaches, including key gender metrics, for all countries  
4. Establish joint work plan with TWS 1 and others  
5. Establish platform for data and adapt tools to gather field data  
6. Build capacity of national coffee bodies to gather, manage, and disseminate data to int’l standard  
7. Conduct analytics collaboratively  
8. Review findings with Advisory Panel, pilot countries, TWS, ICO, and IWCA  
9. Establish protocols for sharing data and begin flow via ICO portal  
10. Prepare data & findings for high-level presentation by end Aug. | 1. Negotiation done and contracting completing  
2. ITAP now established with 14 vetted nominees  
3. ITAP workshops on indicators & methods completed  
4. Initial agreement established with TWS 1  
5. Data architecture in process as precursor for platform  
6. Training team contracted  
7. Engaged country reps in ITAP to prepare  
8. In process  
9. In process  
10. In process | 1. Delays with Uganda efforts required a re-think of options new relations with Rwanda  
2. ITAP has met 7x and advanced admirably with subgroups working to establish optimal protocols  
3. Gender metrics completed with Oxfam & IWCA  
4. TWS 3 has expressed interest in having the same TWS 1-2 approach for institution building applied to getting data for policy  
5. Web platform securely under development for initial data and info exchange  
6. Work begun with institutions (NAEB, SADER). Also with IACO & PROMECAFE to better integrate them to the efforts.  
7. Setting stage for that to occur quickly with dedicated data scientist to facilitate once data flows  
8. Waiting for data in Q2-Q3  
9. National institutions to establish workplan and strategy together to have pragmatic agreement  
10. On track – but will be very tight – needing add’l resources for countries |
**Multi-stakeholder Collaboration -> National Coffee Sustainability Plans**

Dialogue with interested countries: Ethiopia, Honduras, Indonesia, Kenya, Mexico, Papua New Guinea, Peru, Rwanda

Next steps:
- Deepen multistakeholder engagement
- Co-design national multi-stakeholder collaborative spaces
- Forge partnerships with international partners and dialogue with TWS3 IC.
- Formulate proposals for funding (with other TWSs)
- Strengthen team capacity for in-country support
Enabling policies and institutions by Importing Countries

*In dialogue with leaders and national platforms of exporting countries*

Possible **double approach** (proposal in the make):

1. **Mapping**
   - **Support** to coffee sector and concrete initiatives
   - **Existing legislation** and tariffs, importing countries, exporting countries, intra regional trade (coherence, distortions,...)
   - **Transparency upstream market** in importing countries/ consumers

2. **Assessing impact** of (new ?) legislation of importing countries: **consequences, risks, necessary capacity development and investments** in producing countries- and remaining obstacles : at least one on ‘due diligence’, one on ‘no deforestation’, one of regional origin between producing countries
   - Involve national platforms where possible and leaders of exporting countries (selection with TW3 EC)
   - Use where possible Coffee Sustainability Reference Code (GCP) for impact assessment
   - Valorise existing position papers

   • Dialogue on policies *between importing countries & with exporting countries*
   • Joint development of contextualised strategies to mitigate risks and to provide support to existing gaps, integrating the approaches developed by other TWS’
Enabling policies and institutions by Importing Countries

Next steps: AGREE ON PRINCIPLES (meeting May 17th)

• Principles for selection of countries, legislations, priorities,…

• Continuous efforts for participation of Producer Organisations, leaders coffee sector Exporting countries and Consumer organisations (later also development banks)

• Coordination, division of roles and chronology for two approaches (mapping & assessments)
Item 5: Breakout Session: The new EU Deforestation-Free Supply Chains Regulation
Item 5: Breakout Session

• The new EU Deforestation-Free Supply Chains Regulation: potential implications for coffee exporting countries, producers and communities and the role of ICO and of the CPPTF

• Report from the breakout sessions: Discussions and Recommendations
Item 6: ICO & partners in action: links to the Task Force Roadmap
Item 6a: ADA - ICO project in Sub-Saharan Africa
Item 6a: ADA - ICO project in Sub-Saharan Africa

Narrowing the sustainability gap in the coffee sector through Public-Private Partnerships and building the capacity of African Next Generation

**Overall objective / Impact:**

- The overall objective is to narrow the sustainability gap in the coffee industry in Sub-Saharan Africa and thereby harness the potential for profit, people, planet and in people, particularly *youth and women*,

- through *inclusive engagement and PPP* and compliance with emerging sustainability regulations.

- The Project will also serve as a ‘blueprint’ for transformative action in the coffee global value chain beyond the selected countries/region, as well as a reference for transformation of other commodities and value chains.
Item 6a: ADA - ICO project in Sub-Saharan Africa

Project purpose / Outcome:

• The project seeks to increase the number of stakeholders (incl. farmers, cooperatives, producers, exporters, processors, importers, especially youth, women and young innovators, i.e. Coffee’s Next Generation), capable to integrate & implement transformative sustainability practices.

• thereby contributing and boosting the achievement of the SDGs, closing the sustainability gap in the coffee sector in Sub-Saharan Africa and facilitating compliance with the prevailing global standards and regulatory frameworks (e.g. due diligence, deforestation, child labour, etc.).
Item 6a: ADA - ICO project in Sub-Saharan Africa

Expected results / Outputs

1. The ICO CPPTF inclusive engagement and partnerships model in the C-GVC is reinforced and capable to effectively reduce the sustainability gap on the ground.

2. Sector-level sustainability strategies and successful approaches to transform the coffee sector are identified and developed and local intermediaries & service providers are empowered and supported in their capacity to deliver above strategies.

3. At least 3 selected entities/projects/initiatives, particularly CNG, are supported in the adoption and implementation of identified strategies and/or approaches by local intermediaries and service providers.

4. A digital resource/engagement regional hub is fully functional and responds to the needs of beneficiaries and facilitate matching between coffee sector demand for sustainability solutions and service providers in Africa, especially those led by women and youth.
**Item 6a: ADA - ICO project in Sub-Saharan Africa**

**Target Groups and Beneficiaries**

- Young people (Coffee Next-Gen - CNG) along the C-GVC, including those sustainability services and technology providers, technicians, trainers and consultants those led or with engagement of women and youth.
- Sub-Saharan African regional and local entities that support production, processing and exporting of coffee (IACO+++)
- Identified farmers cooperatives and SMEs in selected African countries that are ready to implement and measure the impact of sustainability strategies and solutions
- Private sector companies, especially those engaged with the CPPTF, committed to improve and expand their sustainability sourcing strategies and approaches in Sub-Saharan Africa.
Item 6b: Concept Note / Roadmap Implementation 2022-2026

Wolfgang Weinmann
CPPTF Coordinator
This work will be guided by the International Coffee Organization (ICO) Private-Public Task Force (CPPTF), a unique collaboration of:

- producing and importing member countries
- leading industry and civil society coffee sector actors

working to improve the situation of millions of smallholders and marginalized groups.
CONCEPT

implementation of the objectives will mobilize efforts, activate systems and processes critical for long-term outcomes and ensure partnerships

Scope

- public and private sectors to more systematically measure the impacts of their collaborations,
- share lessons learned, metrics, approaches and feedback for policy reform.
- advance livelihoods, sustainability and address market inefficiencies,
- help stem the flow of migration
- improve similar efforts by international commodity sectors in years to come.
Summary of Outcomes

2. Agreed upon landscape and sector transformation plans.
3. Policies and programming informed by landscape and sector transformation plans.
4. Data collection coordination and broader sustainability performance of specific landscapes.
5. Transparent data gathering and analysis capacity.
6. Established regional knowledge sharing network.
7. Established global knowledge hub.
- 4-year foundational phase
- achieved in line with existing sector efforts
- new and ongoing investments that contribute to CPPTF

**Initial budget estimate is minimum**

EUR 18 million over 4 years.
