Session	Objective	Format
08:00 Breakfast	Networking	Arcos Restaurant
<b>1. Setting the scene - Living and Prosperous income as the pre-requisite to a future-proof and sustainable coffee supply chain</b>	Explicit recognition that there are limits to the current coffee production system defined by 1) Climate related impacts, environmental research and commitments, 2) sustainable production and consumption systems, and 3) legislation. It is crucial to recognize that these define the boundaries to a system in which we strive for a coffee sector where all actors, from smallholders to consumers, will be properly incentivized and rewarded. How do we collaboratively define and work within these boundaries?	<b>Panel discussion</b>
